Know how to use Github to help you develop and work effectively.
PyThon
basic level

TOOLS
* Sublime text
* Git-GitHub
* Photoshop
* Adobe Dream Weaver

Professional Summary

In addition to being a web developer, I'm learning and researching AI more in detail than machine learning. A small piece of artificial intelligence using python, I'm looking forward to. Learn to grow in this direction in the future.

I enjoy most of my free time on the computer. In the winter, I take part in some adventure games, bike ride and eat with friends...
